DIRECTIONS FOR USE

Situation	Rate	Critical Comments
Minimise antagonism to tank mixes with flowable herbicides.	800g/100L spray solution	Half fill spray tank with clean water and start agitation. Add Smart Crystals Spray Grade Adjuvant to the spray tank. With agitation still running, add the required flowable herbicide to the tank and mix thoroughly.
Improve performance under adverse environmental conditions.		Add the required amount of glyphosate based product and the remaining water; mix thoroughly. Add surfactant, if required, near the end of the filling process to minimise foaming. Always maintain adequate agitation during application and use the tank mix promptly.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

GENERAL INSTRUCTIONS

Smart Crystals Spray Grade Adjuvant should be used with non-selective herbicides only, as with some selective herbicides use may result in the loss of selectivity and therefore crop damage. Ammonium sulphate may be corrosive to metal parts of the sprayer. Thoroughly flush tanks, pumps and nozzles with tank cleaner and water after use.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used container.

STORAGE AND DISPOSAL

Keep out of reach of children.

Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight.

Single rinse before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. Puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS

Avoid contact with skin or eyes.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26.

MSDS

Additional information is listed in the Material Safety Data Sheet, which is available from the supplier.

NOTICE TO BUYERS
