APPLICATION RATES

GUIDING PRINCIPLES

Before using Smart Legume Lift, seek appropriate agronomic advice.

Soil analysis combined with plant tissue (or SAP) analysis is recommended to assist in making an informed decision about which product best meets your crop, soil, and general environmental conditions.

Fertiliser can burn and or damage crops and pasture. Because of climatic and soil conditions application methods, irrigation and management practises are beyond the control of Crop Smart Pty Ltd and cannot be foreseen. Crop Smart Pty Ltd accepts no responsibility whatsoever for any commercial damage, loss or another result following the use of this product, whether used in accordance with directions or subject to any overriding statutory provision and provided that such liability under those provisions shall be limited to the replacement of the goods as supplied or the rendering again of the services that are provided. The buyer accepts and uses this product subject to these conditions.

PRODUCT INFORMATION

PRODUCT STORAGE

Keep material in a cool, dry, well ventilated area, away from direct sunlight between 10 to 30°C. Store product in suitable containers made from a material such as stainless steel, high density polyethylene, and fiberglass. Fluid fertilisers can be corrosive to material such as brass, copper, zinc or alloys of these metals. Clean equipment after use thoroughly with clean, fresh water. Use a tank cleaner to rinse fertiliser tanks and transfer systems. Smart Legume Lift is recommended for use within 12 months from manufacture date.

IMPURITIES

Cadmium (Cd) 2.9mg/kg

WARNING & SAFETY INFORMATION

WARNING: Do not swallow. The spray from this product may act as an irritant. Avoid inhalation and contact with the eyes and skin. Wear rubber gloves and appropriate eye protection when handling the product. See the product MSDS for more information.

WARNING: This product contains heavy metal impurities. Its use may result in accumulation of cadmium in the soil. Depending on soil characteristics, irrigation water quality, plant species and variety, crop uptake of cadmium may lead to residue levels in plant and animal products in excess of the maximum level specified by the Australia New Zealand Food Standards code. In the pasture, the offal from grazing animals may also exceed these limits.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Telephone Australia 13 11 26.

MATERIAL SAFETY DATA SHEET

Additional information is listed in the Material Safety Data Sheet, which can be obtained from the supplier.

NOTICE TO BUYERS

Crop Smart Pty Ltd ("Crop Smart") shall not be liable for any loss, injury, damage or death whether consequential or otherwise whatsoever or howsoever arising whether through negligence, use under abnormal conditions or otherwise in connection with the sale, supply, use or application of this product. The supply of this product is on the express condition that the purchaser does not rely on Crop Smart's skill or judgement in purchasing or using the product and every person dealing with this product does so at their own risk.
